IPPARKING

WE ARE LOOKING FOR

- A Test Engineer with an interest in BI/Data testing

- Bachelor's degree level of working and thinking

- At least 2 years of experience as a hands-on tester in system, functional (acceptance), and end-to-end testing

- Good command of the Dutch and English language (spoken and written)

- Accuracy, strong communication skills, and the ability to identify and report errors to developers

- Knowledge of SQL, SOAP and REST API services, and experience with the mentioned tools

- Extensive experience using PCs and Microsoft 365

THIS MAKES US EXTRA HAPPY

- You are TMAP (Next) and/or ISTQB certified or willing to obtain this certification

IPPARKING

WE ARE OFFERING YOU:

Salary
€3.500 - €5.000, depending on your experience

38 off days
25 vacation days and 13 ADV days, (but also the option to have a large part paid out)

Training budget
We like to see you develop, so you have an annual budget to spend on training and/or courses

Trust and space
Everyone is welcome to participate in our developments, which is why we offer room for your own input and ideas

Pension
We also like to arrange things well for later, which is why we have a pension scheme at PMT

Remote work
You have the option to work from home two days per week

GROWTH OPPORTUNITIES
Growing within or outside your own position, that is up to you. We will help you to achieve your potential!

APPLICATION PROCESS

If reading this or any of the other vacancies makes you happy, we would love to meet you!

01 CONTACT US

Leave your details:
- Email (HR@ipparking.com)
- Phone (0492-793913)
- WhatsApp (06-21536177)

We will contact you within 1 working day.

02 ACQUAINTANCE

If your profile matches, we will invite you for an introductory meeting at our office in Zaandam. You will have this interview with Jos and Patrick (Managers R&D).

03 SECOND INTERVIEW

If the first interview is positive for both sides, we will invite you for a second interview with Jos and Patrick. In the first part, a direct colleague will join to discuss the role and collaboration in more detail. In the second part, Susette (HR) will join to give you a clear picture of our company and to discuss the terms of employment.
04 OFFER

If we are all still enthusiastic after the 3rd conversation? Then you will receive a suitable offer from us.
IPPARKING

Family business

IP Parking is a young and dynamic company full of experience. In our family business, hard work is combined with the necessary dose of fun. We are more than just colleagues and our mutual contact is friendly and based on trust.

International

Despite the small and close-knit teams, we are part of a growing international organization. We believe it is important that we also work closely with our own customer centers in North America, Belgium and Poland and our dealers worldwide, even remotely.

A large company that therefore feels small and where people really make the effort to get to know each other better.

Technology

We develop our products ourselves, both the software and the hardware. Here we combine different and interesting techniques.
Our mission is to offer our customers and their end users the best Xperience. This ensures that we are constantly looking for new opportunities, techniques and developments. We believe it is important that all employees are given the space to think along in the process and to contribute to the continuous innovations of our services and product range.

We don't have to be the biggest, but we do want to offer the best service to our customers.

Development

Development is important to us, not only in our products, but also for our employees.
We facilitate (internal) training programs, like to think along with you about possibilities and offer the space to grow.

IPPARKING
it's all about Xperience
